

Group 12 Assumptions

1. An assumption was made that departure and arrival times recorded by World Cruises includes the date in regard to the information provided:

| “World Cruises records all departure and arrival times for a given cruise”

2. The cruise does not stopover (arrive and depart) a port twice. Each cruise will only dock and undock a port once. i.e., World Cruises does not schedule two stopovers at Sydney port for two arrivals and departures each.

No other assumptions were made.
